Il Bastione

Structure

“Il Bastione” B&B is an old terraced house the interior of which has been recently renovated to preserve many of original characteristics.

It is located within the Sixteenth-Century walls, just near Prato della Valle.

St. Giustina’s Bastione (now being restored) is just a few steps away...

From the B&B you can easily reach Saint Antonio’s Basilica and the Botanical Garden. The city-centre squares, the main seat of the University, some University Faculties, and the Hospitals are easily reached on foot.

The house’s layout gives freedom of movement to our guests, and there is a large and comfortable staircase to upper floors.

Rooms

One guest room is located on the first floor, and two on the second, with views of Sixteenth-Century walls and the little park inside the monastery of Saint Giustina’s

Basilica.

There is no lift, but a large and comfortable staircase leads to the upper floors.

There are three double rooms to which we can add an extra bed if necessary. The rooms on the second floor have an en-suite bathroom, and the room on the first floor has a private, separate bathroom.

Services

Furnishings are simple, but pleasant.

There are wood floors and exposed beams, and a warm and cosy atmosphere throughout the house.

There is no TV.

Breakfast is served in a little room on the ground-floor.

About 50 metres from the B&B there is free public parking with about a dozen spaces available.

RATES ARE FOR AN OVERNIGHT STAY IN A DOUBLE ROOM WITH PRIVATE BATHROOM AND ARE INCLUSIVE OF BREAKFAST. DISCOUNTED RATES FOR LONG STAY.
